

Did you know your dog must have a dog license?

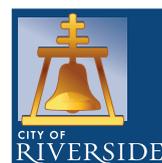

California state law requires all dogs over 4 months old to be licensed and vaccinated for rabies. The City of Riverside also requires that both dogs and cats be spayed or neutered, and have microchips in case they are lost.

Animal control officers go door-to-door all year to contact pet owners directly and provide information regarding vaccination and license requirements. Residents may also report animal-related violations such as neglect, cruelty, constant barking, dogs allowed to run loose or an excessive number of animals on a property.

If you need to have your animal micro-chipped or vaccinated there are low cost clinics held every month at the County/City Animal shelter, and spay/neutering is available by appointment only. The Shelter is located at 6851 Van Buren Blvd, and you can always call the City of Riverside Call Center by calling 311.

IN ORDER TO AVOID PENALTIES, BE SURE TO LICENSE YOUR DOG.
